Fold-Over Business Cards offer more space for information than traditional business cards, as they open to reveal a surface area double the size. They often have traditional business card information on the front and offer important business information on the interior. While much of the information is the same from one business card to another, font, style, substrate, and imagery set you apart and make your impression unique.

For photos please send high resolution "jpg" files. Web-based "jpg" photos are low resolution and will not print well. For logo files we like to use "eps" or "ai" files. Questions?? – just ask us.
